PROFILE

An Innovative Programmer and aspiring **Software Developer** striving to make the world a more unified and connected place and working with various data structures.

PROJECTS

Chrome Extension

This was created using HTML, CSS, and JS which allows us to save the currently opened tabs in the window and also allows us to enter the tab URL manually.

Music Player

This is an Android application created using Android Studio with Java and XML. This is used to play songs that are present on the mobile device locally.

Food Order Website

This is a food order website made with only HTML, CSS, and JS without using any libraries and hosted online at netlify.com.

Hosted Link: <https://orderfoodhere.netlify.app/>

Portfolio Website

This is my portfolio website created using frameworks such as ReactJS, and Bootstrap which is fully responsive on all devices and is hosted online at netlify.com.

Hosted Link: <https://radhikaarora.netlify.app/>
